

## Frivolous (live)

## TECHNICAL RIDER

- Table space: 110 cm x 60 cm at 1 m height
- 1 stereo channel on DJ mixer (within reach of performance area for control of monitor level)
- Stereo Monitors in area of the performance
- Writable tape, pen, and gaffer tape
- laptop stand, or anti-vibration stand
- 61-Key MIDI controller with 8x Faders (**necessary only for gigs away from Berlin/Brandenburg region**). The following type of models will work:
  - M-Audio Oxygen Pro 61
  - Novation Impulse 61
  - Arturia KeyLab Essential 61
- Setup time will take approximately **30 minutes**. Sound-check may take an additional **60 minutes** to do properly. This soundcheck time will be less when I am bringing my own keyboard for gigs close to Berlin due to the time saved mapping MIDI parameters to a new keyboard.

## HOSPITALITY RIDER

- |               |  |
|---------------|--|
| Non alcoholic | <ul style="list-style-type: none"><li>• 2 liter of sparkling water</li><li>• Towel</li></ul>     |
| Alcoholic     | <ul style="list-style-type: none"><li>• Vodka &amp; fruitjuice (appel oder rharbarbar)</li></ul> |

...

... will greatly improve the show!
