# CORA VITKO

Meandering between hypnotic techno, acid, deep-tech, tech house, gangsta basslines, melodic electronica, chicago, groovy, sexy deep house beats, breaks and the weird and trippy things in-between, there's nothing Cora loves quite as much as taking whichever room she lays her hands on for one heck of a dance journey.

Based in Berlin and driven by the message of freedom, unity and self-expression that is the rave, Vitko developed her passion for strong melodic progressions, analog compositions and bold phrasing through 15 years of classical piano education, during which she also started collecting vinyl digging electro, techno and house.

German bred from a polish immigrant family, she is known for her stylish sound selection and understated, chunky mixing style, and has moved dancefloors in Europe, Australia, South Pacific Islands and the Americas — creating unity and an infectious energy that she smears all over your body and into your soul.

She also enjoys frosty weissbier, foot massages and watching people have a really good time.
